### Chun Wo Group Wins 4 awards in Hong Kong Green Awards 2013

[Hong Kong, 5 December, 2013 ] Chun Wo Group undertakes a wide range of large-scale construction projects, thus we always consider environmental protection as our utmost priority and implement it at both operation and policy levels. All construction sites are also encouraged to enhance their performance in environmental protection in their daily operation, in hopes to help build Hong Kong into a green city.

The Chun Wo Group has received 4 awards from the Hong Kong Green Awards 2013 organized by Hong Kong Green Council. Two construction projects, namely Kwun Tong Promenade (Stage 2) and the Noise Barriers on Fanling Highway between MTR Fanling Station and Wo Hing Road, are both awarded with the Green Management Gold Award (Corporation) - Project Management. Another two projects, Happy Valley Underground Stormwater Storage Scheme and the Central-Wan Chai Bypass Tunnel (North Point Section) and Island Eastern Corridor Link managed by Chun Wo-CRGL-MBEC Joint Venture, are both awarded with Green Management Bronze Award (Corporation) - Project Management.

Chun Wo Group will strive to make continuous contribution in environmental protection.
